

Sartorius Introduces a Free Comprehensive Process Equipment Control Catalog

Now available in one comprehensive catalog –Sartorius accurate high speed checkweighing, metal detectors, beltweighers, X-Ray Detection System's and software for process control. Sartorius has the answer to most process application needs for the food, pharmaceutical and chemical industries.

- **Dynamic Checkweighing:** Sartorius highly accurate and reliable, dynamic modular checkweighing systems, are both modular and easy to maintain.
Key features of the line include:
 - Wide range of designs and performance classes for all types of facilities
 - Combination metal detection and checkweighing units available
- **Metal Detection** State-of-the-art metal detection technology from Sartorius is the answer to the most demanding applications. Our line consists of the Observer unit that can detect metal thru aluminized packaging. Key features of the line include:
 - Multi-frequency systems and multichannel technology that guarantee safe detection and is unsusceptible to disturbances
 - Numerous QA functions support complete documentation as proof of quality assurance
 - Simple, safe operation with integrated online help-4 different equipment ranges
- **X-Ray Detection Systems** Sartorius X-Ray detection Systems are ideal for contaminant detection in the food, pharmaceutical, beverage and textile industries. Key features of the line include:
 - Highest detection performances (proven by main Groups)
 - Very easy to use and maintain
 - Ideal in glass in glass detection
 - Most extensive range of X-ray equipment available in the process marketplace

For Immediate Release

The Sartorius Group is an internationally leading laboratory and process technology provider covering the segments of Sartorius Mechatronics and Sartorius-Stedim Biotech. For the Sartorius Mechatronics segment in particular, the company manufactures equipment and systems featuring weighing, measurement and automation technology for laboratory and industrial applications. Its Sartorius-Stedim Biotech segment covers major areas of focus on fermentation, filtration, purification, fluid management and laboratory applications. Key Sartorius customers are from the pharmaceutical, chemical and food and beverage industries and from numerous research and educational institutes of the public sector. Sartorius has its own production facilities in Europe, Asia and America as well as sales subsidiaries and local commercial agencies in more than 110 countries.
